AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph located on page 4, line 22 through page 5 line 15 with the following paragraph:

This invention is generally directed to a method for cationically polymerizing olefin monomers comprising the step of using a composition having the chemical structure:

wherein $\text{Ar}^{\text{F}} = \text{C}_6\text{F}_5$ or $\text{Ar}^{\text{F}}_2 = \text{C}_{12}\text{F}_8$

as a coinitiator in an organic phase or neat monomer reaction phase.

Please replace the paragraph located on page 7, line 26 through page 8 line 18 with the following paragraph:

This invention is generally directed to a method for cationically polymerizing olefin monomers comprising the step of using a composition having the chemical structure:

Application Number: 10/817,187
Response Dated: September 1, 2006
Office Action Dated: March 1, 2006

wherein $X = CH_2$, NR , or O

and $Ar^F = C_6F_5$ or $Ar^F_2 = C_{12}F_8$

as a coinitiator in an organic phase or neat reaction phase.

Please replace the paragraph located on page 16, lines 20 through 25 with the following paragraph:

6)

wherein $Ar^F = C_6F_5$ or $Ar^F_2 = C_{12}F_8$

Please replace the paragraph located on page 19, lines 20 through 25 with the following paragraph:

11)

wherein $Ar^F = C_6F_5$ or $Ar^F_2 = C_{12}F_8$
